SKILLS SUMMARY

- **Languages:** Java(Proficient), C(Decent), JavaScript(Good), Python(Decent)
- **Frameworks:** HTML and CSS(Proficient), React.js(Good), Node.js(Decent) , Spring Boot(Good)
- **Tools & Platforms:** MySQL(Proficient), VS Code and Git(Good)
- **Soft Skills:** Leadership, Problem-Solving, Communication, Project Management, Adaptability

EDUCATION

- **D Y Patil School of Engineering and Management, Kolhapur** June 2025
B.Tech (Computer Science & Engineering) — CGPA: 8.86
- **Kamala College, Kolhapur (MSBSHSE)** 2023
XII (HSC) — 75.17%
- **Shri Hanuman Vidyalaya, Injabav (MSBSHSE)** 2021
X (SSC) — 95.8%

EXPERIENCE

- **Google Girls Hackathon 2025** (Participant) Feb 2025 – Mar 2025
 - Collaborated with a diverse team to develop technology-driven solutions for real-world challenges.
 - Applied analytical thinking and problem-solving in a competitive, innovation-focused environment.
 - Strengthened teamwork and technical communication through cross-functional collaboration.
- **HackOutSav 2025** (Hackathon Participant) 2026
 - Contributed to an AI-Powered Deepfake Detection Platform for identifying manipulated digital media.
 - Designed a solution enabling users to upload videos or URLs for authenticity verification.
 - Explored scalable AI-based approaches with real-world applications in fraud prevention and digital safety.

PROJECTS

- **CollabCode – Real-Time Collaborative Coding Platform**
Tech: React.js, Spring Boot, MySQL, WebSocket, JWT, Monaco Editor, Judge0 API, Spring Data JPA
 - Developed a full-stack platform supporting real-time code editing and room-based collaboration.
 - Implemented JWT-based secure authentication and integrated Judge0 API for multi-language code execution.
 - Built RESTful APIs with Spring Boot; enabled live sync via WebSocket (STOMP/SockJS) and responsive UI with React.
- **AI-Driven Health Chatbot for Disease Awareness (Smart India Hackathon 2025)**
Tech: Node.js, Express.js, SQLite, Gemini API, Twilio, HTML, CSS, JavaScript
 - Developed backend services using Node.js and Express.js for chatbot communication.
 - Implemented SQLite database connectivity to store and retrieve healthcare information efficiently.
 - Designed REST APIs for processing user queries and fetching disease-related data.
 - Integrated Gemini API for AI-generated responses and Twilio for SMS notifications.
 - Built an Excel-to-SQLite data pipeline for managing healthcare datasets.

ACHIEVEMENTS

- **2nd Place** – Web Development Hackathon 2025, DYPSEM, sponsored by Walstar Technologies Pvt. Ltd.
- Selected for **Google Girls Hackathon 2025** – Google's national hackathon empowering women in technology.
- Active member of the **GDSC Coding Team**, contributing to technical learning and community activities.

CERTIFICATIONS

- NPTEL Certified – Database Management System
- NPTEL Certified – Fundamentals of Object Oriented Programming
- NPTEL Certified – Data Science for Engineers
